

# Rightway members have access to virtual care with Curai Health.

Chat with licensed clinicians to address symptoms, request prescription refills, or get an evaluation for depression or anxiety. If you have a reason to talk to a doctor, Curai is here to help.

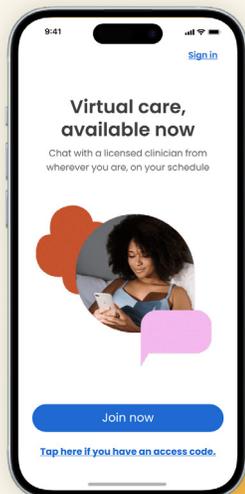

## HOW IT WORKS

What can we do for you today? Each visit starts with a simple question.

To get started:

- 1 Create your account at [curaihealth.com/rightway](https://curaihealth.com/rightway).
- 2 Connect with licensed clinicians via chat.
- 3 Ask us about your concern and get care. Then, each visit is followed up by a tailored plan and the support to address your needs.

## GET STARTED NOW

In the time it takes to search for your symptoms online and scare yourself with the worst-case scenario, you can use Curai to get a diagnosis from a licensed clinician.

Appointments are available anytime, day or night, for members over the age of 5. Doctors can help you address common conditions like the flu, assess your mental health needs, or manage chronic conditions like high blood pressure and diabetes.
